All Puppies are sold as pet quality and there are no guarantees, expressed or implied as to adult size of the puppy, temperament or breeding soundness.

Your puppy has been wormed prior to sale and has appropriate age vaccinations. Vaccination record will be sent with the puppy. Corona and Rabies vaccinations should be delayed until the puppy is a sturdy size and age. Do not give oral heartworm medications to a puppy under 2 lbs. Use Spot On Flea meds SPARINGLY!! Remember, they are poisons and should not be used in excess or in any combination with other flea products.

Buyer is to arrange a puppy check up by a qualified Vet within 5 days of receiving the puppy. During this initial exam should your veterinarian detect any communicable disease or life threatening health condition, you must contact me immediately and return the puppy within two days (if possible) with the vet's report of diagnosis. The buyer is responsible for returning the puppy and all papers (registration and shot records) to the seller. In case of death of the puppy before the initial exam, the buyer must submit a veterinarian's necropsy report as to the cause of death and death must be entirely due to a covered communicable disease or congenital defect. Breeder/Seller shall be notified immediately in the event the puppy has an illness or does not eat well before the initial exam.

Breeders warranty is limited to a replacement puppy or purchase price refund upon the immediate return (within 2 days of vet exam) of the puppy (uninjured and unharmed), it's registration papers and a written veterinarian's statement that includes the complete diagnosis of the communicable disease or congenital life threatening defect that makes the puppy unfit. **I GIVE A ONE YEAR GUARANTEE ON GENETIC HEALTH. NOT COVERED:** internal or external parasites, hernia, undescended testicles, under or overbite, injury, allergies, heat exhaustion, kennel cough or hypoglycemia. Hypoglycemia is preventable with good care and feeding.
